| Wine pH | 3.64 |
| Bottle Sizes | 75cl |
| Notes | Vegetarian, Vegan |

PRODUCER

Bodega Garzón is a family owned winery in Maldonado on the Atlantic coast in southern Uruguay. They pioneered viticulture in this area over 10 years ago, and have since become the standard -bearer for premium wines from Uruguay. In November 2018, their pioneering status was recognised by Wine Enthusiast with the 'New World Winery of the Year' award. The vineyards at Bodega Garzón are a patchwork quilt of 1,150 individual plots of around 0.2 hectares in size, each plot carefully chosen for a specific variety according to its soil and microclimate. The winery is specially designed to operate as sustainably as possible, and is the first winery outside North America to pursue LEED certification (Leadership in Energy and Environmental Design). Built on natural terraces, the winery uses cutting-edge technology and operates using a gravity system to ensure quality and energy efficiency at every stage of production.

VINEYARDS

Located 11 miles from the Atlantic Ocean, the estate has more than 1,000 small vineyard blocks covering hillside slopes, which benefit from varying microclimates, different levels of humidity and an intense canopy management. Well-draining granitic soils and cooling Atlantic breezes allow the grapes to ripen steadily. The vineyards are surrounded by lush forests, palm trees, rocky soils and granite boulders.

VINTAGE

The 2023 vintage was almost two weeks shorter than usual. Spring started off dry and cool, providing ideal conditions for flowering and berry set. However, a historic drought persisted from spring to summer, requiring nighttime irrigation from September until harvest time. This careful water management was crucial to achieve the desired yields and ripeness for each grape variety. Despite the challenges, the 2023 harvest developed wines of extremely high quality with excellent complexity and structure.

VINIFICATION

The hand-harvested grapes were processed separately. After five days of maceration, fermentation took place in stainless steel tanks at 26-28°C for one week with twice daily pump overs. The wine then remained in stainless steel tanks for a further three to six months on lees before blending and bottling.

TASTING NOTES

This vibrant blend of Cabernet Franc, Tannat, Merlot, and Marselan is packed with aromas of sweet spice, dried herbs and hints of green pepper. Fresh and silky on the palate, flavours of soft black berries are balanced by gentle tannins. This is a very pleasant, food-friendly wine.
